

Wine At Your Fingertips

Online retailer Brix26 offers wine along with highly personalized service through the Web.

"We taste hundreds of California wines and only place those that we think are really special on our Web site," notes founder Peter Langenstein.

"When you visit us, you won't be overwhelmed with hundreds of wines. Instead we've designed it so you can seek a varietal of your choice and view focused, hand-picked selections that directly fit your preference." Brix 26 hand writes tasting notes on each wine, including background information, history on the winery, food pairing recommendations, and any expert ratings it may have. Brix26 also offers various monthly wine clubs. (866/427-4926, www.brix26.com) — Maria Desiderata Montana
